Bcs AP Psychology 2e 2014-01-03 old english verse and prose depict the human mind as a corporeal entity located in the chest cavity susceptible to spatial and thermal changes corresponding to the psychological states it was thought that emotions such as rage grief and yearning could cause the contents of the chest to grow warm boil or be constricted by pressure while readers usually assume the metaphorical nature of such literary images leslie lockett in *anglo saxon psychologies in the vernacular and latin traditions* argues that these depictions are literal representations of anglo saxon folk psychology lockett analyses both well studied and little known texts including insular latin grammars the ruin the old english soliloquies the rhyming poem and the writings of patrick bishop of dublin she demonstrates that the platonist christian theory of the incorporeal mind was known to very few anglo saxons throughout most of the period while the concept of mind in the heart remained widespread anglo saxon psychologies in the vernacular and latin traditions examines the interactions of rival and incompatible concepts of the mind in a highly original way

Philosophy and Psychology Pamphlets 1938 in *lovesickness in the middle ages* mary f wack uses newly discovered texts and takes a fresh look at primary sources to offer the first comprehensive analysis of the forms and meanings of the lover s malady in medieval culture

Melancholie und Acedia 1984 en las últimas décadas la figura de juan duns escoto c 1265 1308 ha cobrado un gran interés entre los investigadores por la originalidad tanto de su metafísica como la de sus posiciones teológicas al punto que lo colocan en un peldaño fundamental para comprender el pasaje entre la edad media y los albores de la modernidad su legado se traduce en una basta escuela escotista que será una de las grandes líneas escolásticas heredadas en los siglos xvi y xvii entre sus aportaciones a la reflexión filosófica encontramos por ejemplo la univocidad de la noción de ente la defensa de la distinción formal el principio de individuación conocido como haecceitas la actividad libre de la voluntad entre otras que configuran un posicionamiento filosófico digno de ser estudiado si bien escoto no ha sido un gran físico ni ese fue su interés primordial a pesar de haber estado en relación con el ambiente oxoniense en el que la investigación cosmológica tuvo un gran despliegue no pasan desapercibidas cuestiones propias de la scientia physica a lo largo de su obra no solamente en textos filosóficos sino también en aquellos de índole teológica volver la

mirada hacia un pensador medieval para estudiar su filosofía natural puede resultar mera erudición en el mundo que vivimos sin embargo la imagen del cosmos que la ciencia ha modelado en el último siglo presenta la contingencia como una característica fundamental de la realidad material es por ello que Enrique Mayocchi nos presenta aquí un profundo estudio del tema de la causalidad desde la perspectiva de la causa eficiente con el objetivo de ofrecer al lector una visión completa de la manera en que el doctor sutil entiende la actividad física y su visión ontológica del cosmos la contingencia será el aspecto fundamental del mundo físico analizada a partir de cómo influye la actividad voluntaria divina en su configuración resaltar entonces el pensamiento de Duns Escoto y su paradigma filosófico que hace centro en la noción de contingencia con seguridad podrá ayudar al diálogo interdisciplinario entre filosofía y ciencia

Anglo-Saxon Psychologies in the Vernacular and Latin Traditions 2011-01-01 this collection of essays represents the first attempt in this country to examine systematically the nature and development of modern Japanese self-consciousness as expressed through culture the essays reveal eloquently the extent to which important aspects of Japanese intellectual life in the early twentieth century were inspired by European models of cultural criticism ranging from Kant and Hegel to Nietzsche Marx Durkheim and Bergson implicitly comparative this collection raises the question whether late industrialization and related processes call forth cultural convergence as between East and West or whether a living culture transforms these processes and makes one nation's experience significantly different from that of others together with the editor the contributors include Brett de Bary Thomas W. Burkman H. D. Harootyan Germaine A. Hoston Nozomu Kawamura Stephen W. Kohl William R. LaFleur Hajimu Nakano Donald Roden Miriam Silverberg Eugene Sviak Jackie Stone Shuji Takashina and Makoto Ueda originally published in 1990 the Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press these editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions the goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Lovesickness in the Middle Ages 1990 an account of Jung's handling of the transference between psychologist and patient in the light of his conception of the archetypes based on the symbolic illustrations in a sixteenth century alchemical text

Liber de Anima, Seu Sextus de Naturalibus. Edition Critique de la Traduction Latine Médiévale Par S. Van Riet 1972 this edition contains all Bacon's philosophical works as well as translations literary and professional works also included are introductions and explanatory footnotes and a new introduction by Graham Rees

APS Observer 2003 der band enthält eine Auswahl von Aufsätzen zu Platon von seinen sokratischen Anfängen bis zu seiner Nachwirkung bei Donald Davidson und Hans Georg Gadamer ein besonderes Augenmerk liegt auf der Problematik der Idee des Guten und der Frage ihrer Transzendenz und Immanenz

Causalidad y contingencia en la filosofía de Juan Duns Escoto 2021-09-29 are we in control of our own development in adulthood or are we shaped by circumstances beyond our control by adopting the concept of intentional self-development ISD this text outlines an action-theoretical approach to human development that emphasizes both an individual's ability to shape their own development throughout the lifespan and the extent to which this potential is limited by examining general age-related changes and critical life events intentional self-development and positive ageing explores the adaptive cognitive motivational processes that generate positive development in adulthood including developmental tasks cognitive

changes life stage transitions and biological and neural processes leipold goes on to discuss the concept of positive ageing highlighting the flexibility of the term and evaluating it from multiple perspectives to demonstrate its subjectivity as well as its importance this text also discusses the importance of resilience in positive development contributing to the search for conditions conducive to positive life conduct across the lifespan this book will be essential reading for undergraduates and postgraduates studying lifespan development and gerontology positive psychology or health psychology as well as researchers in those fields it will also be of interest to developmental counsellors clinicians and other applied occupational groups who are seeking to understand the psychological basis of actions

Franciscan Institute Publications 1946 first published in 1999 routledge is an imprint of taylor francis an informa company

Liber De Anima Seu Sextus De Naturalibus 1968-12-01 the supplements to vigiliae christianae series was launched in 1987 with the publication of tertullianus de idololatria a critical text with translation and commentary by j h waszink and j c m van winden partly based on a manuscript left behind by p g van der nat it seems appropriate therefore that the 100th volume to appear in the supplements to vigiliae christianae series should be an updated reprint of j h waszink s monumental and authoritative edition of tertullian s de anima this volume contains the complete contents of the first edition to which we have added a brief overview of j h waszink s scholarly career an english translation of the greater part of the introduction to his german translation of de anima of 1980 and a list of corrections authorized by him

Culture and Identity 2014-07-14 a formidable challenge to the study of roma gypsy music is the muddle of fact and fiction in determining identity this book investigates gypsy music as a marked and marketable exotic substance and as a site of active cultural negotiation and appropriation between the real roma and the idealized gypsies of the western imagination david malvinni studies specific composers including liszt brahms rachmaninov janacek and bartók whose work takes up contested and varied configurations of gypsy music the music of these composers is considered alongside contemporary debates over popular music and film as malvinni argues that gypsiness remains impervious to empirical revelations about the real roma

The Psychology of the Transference 2013-04-15 this collection of essays in english german and french marks the sixth centenary of the birth of nicholas of cusa 1401 64 one of the most important thinkers of 15th century europe

The Philosophy and Psychology of Pietro Pomponazzi 1962 this book examines how interpretation and examination of greek sculpture are intertwined

Collected Works of Francis Bacon 1996 the routledge spanish bilingual dictionary of psychology and psychiatry contains over 100 000 entries making this the most comprehensive and up to date dictionary of its kind the dictionary provides concise comprehensive and current coverage of every word or phrase used in the study and practice of psychiatry and psychology this valuable reference tool covers all disciplines and sub disciplines both research based and clinical this is a vital resource to those in the healthcare professions to academicians and to those who work in translation and or interpretation healthcare and the law who are in contact with the english and spanish speaking communities

Philosophical Studies 1945 first published in 2000 routledge is an imprint of taylor francis an informa company

Platonische Aufsätze 2020-06-08 the present book has two origins one very remote the other nearer and more contingent the first goes back to the time when i initiated my career as a neurophysiologist in pisa a small town with the advantage of a highly stimulating atmosphere created by two famous institutions the university and the scuola normale superiore it came quite naturally then while engaged in experimental work to start brooding over the possible analogies between neurophysiological problems and those of the physical world this slowly induced me to become less

interested in the solution of the innumerable specific problems presented by the brain and more in the general principles on which the brain function might be based certainly for several years i had no clear idea of my purposes or of the difficulties i could encounter in the task however it was clear enough that there ought to be a first indispensable step the search for methods of quantification of nervous activity the sole way of allowing predictions about its behavior at first i somehow followed the fashion of the time experiencing the impact of information theory on neurophysiology but soon this was revealed as unsatisfactory since it was only one aspect of the problem and what i was interested in was not a way of describing the flow of information but rather the laws of the machinery

Intentional Self-Development and Positive Ageing 2019-08-15 this study is the first to assemble the evidence for the existence of sorcerors and sorceresses in the ancient world compelling and revealing in the breadth of evidence employed this will be an essential resource

Etymologische Forschungen 1999 how can beliefs which are immaterial be about things how can the body be the seat of thought this book traces the historical roots of the cognitive sciences and examines pre modern conceptualizations of the mind as presented and discussed in the tradition of commentaries on aristotle s de anima from 1200 until 1650 it explores medieval and renaissance views on questions which nowadays would be classified under the philosophy of mind that is questions regarding the identity and nature of the mind and its cognitive relation to the material world in exploring the development of scholastic ideas concepts arguments and theories in the tradition of commentaries on de anima and their relation to modern philosophy this book dissolves the traditional periodization into middle ages renaissance and early modern times by placing key issues in their philosophico historical context not only is due attention paid to aristotle s own views but also to those of hitherto little studied medieval and renaissance commentators

Quinti Septimi Florentis Tertulliani De Anima 2009-12-14 providing an in depth analysis of the virtues of evangelical life according to three major franciscan authors this book is a valuable contribution to our understanding of how the virtues functioned as central organizing elements in early franciscan literature and instruction

Medieval Rhetoric 2004 providing comprehensive coverage ways to the center an introduction to world religions fifth edition weaves together rich historical cultural and theological detail into structural and philosophical sections that analyze each religion in terms of its views on nature society self and ultimate reality the text is designed to facilitate critical thinking and is centered on how today s students learn
