a scathing sardonic exploration of silicon valley tech culture laying bare the greed hubris and retrograde politics of an industry that aspires to radically transform society for its own benefit at the height of the startup boom journalist corey pein set out for silicon valley with little more than a smartphone and his wits his goal to learn how such an overhyped industry could possibly sustain itself as long as it has but to truly understand the delirious reality of the tech entrepreneurs he knew he would have to inhabit that perspective he would have to become an entrepreneur himself thus pein begins his journey skulking through gimmicky tech conferences pitching his over the top business ideas to investors and rooming with a succession of naive upstart programmers whose entire lives are managed by their employers who work endlessly

and obediently never thinking to question their place in the system in showing us this frantic world pain challenges the positive feel good self image that the tech tycoons have crafted as nerdy and benevolent creators of wealth and opportunity revealing their self justifying views and their insidious visions for the future vivid and incisive live work work work die is a troubling portrait of a self obsessed industry bent on imposing its disturbing visions on the rest of us

## **Work Rules! 2016-02-24**

through my adventures over the past couple of years i realized there are three fundamental areas where i've spent the most time working and they're not what you may assume when i started my business i thought tweaking the details of my website and generating quality content would be the most time consuming part of my new career but that was small potatoes compared to other aspects within the creative badass challenge you're not going to find tips on which marketplace to host your products you're not going to find out which company is the best place to host your own website there is no information about which is the best social media platform in the grand scheme of your creative life these things are tiny in comparison to the real concerns the purpose of this workbook is not to show you technical or tactical how-tos for your business but instead give you tools for managing an entire life of choices both in your professional and personal life the work you do within these pages is not something that shifts over time these are tried and true methods for making serious change i have applied all these lessons to my own creative life and i can say without any doubt that these tools have made me the success i am today now success is relative and what i consider successful may not be the same as you but these methods are proven by many others who have found their creative freedom some of which are wildly successful by any measure the creative badass challenge is about taking responsibility for ourselves and taking action on the parts of our lives that we control if the world is not fitting our vision then we change it and we do it with repeated actions from lessons learned within these pages i invite you to join this challenge and start taking charge of the

creative life you deserve

a consensus shattering account of automation technologies and their effect on workplaces and the labor market in this consensus shattering account of automation technologies aaron benanav investigates the economic trends that will shape our working lives far into the future silicon valley titans politicians techno futurists and social critics have united in arguing that we are on the cusp of an era of rapid technological automation heralding the end of work as we know it but does the muchdiscussed rise of the robots really explain the long term decline in the demand for labor automation and the future of work uncovers the deep weaknesses of twenty first century capitalism and the reasons why the engine of economic growth keeps stalling

equally important benanav goes on to salvage from automation discourse its utopian content the positive vision of a world without work what social movements he asks are required to propel us into post scarcity if technological innovation alone can t deliver it in response to calls for a permanent universal basic income that would maintain a growing army of redundant workers he offers a groundbreaking counterproposal
