as this book is the first book worldwide in the sustainable management of luxury area it highlights key aspects in the sustainable management of luxury based on presentations using different approaches whether reflexive empirical hands on or applied theory and cases the global hotel alliance gha is the largest hotel alliance in the world however their presence is currently the strongest in their traditional markets in europe with the increasing growth of tourism in the east that is the middle east asia and australasia the gha is now planning to intensify their presence and strengthen their position in these markets initially the decision point of this case is outlined highlighting the aim of the gha of intensifying their presence in the east next the background of gha including its history and development outlining the company brands and their global distribution is presented before highlighting the gha business structure the discovery rewards program is then explained by providing an overview of the program explaining how it works and how it differs from the rewards programs of other hotels and hotel alliances a competitor analysis is then presented which highlights the similarities and differences between the gha and its competitors in particular other alliances in the luxury hotel segment finally two strategic challenges that the gha has faced are presented outlining the nature of the challenge the solution to the challenge and finally the benefits that have arisen from taking action before concluding the case the future strategy of gha will require careful decisions about its positioning in the global luxury hotel industry to what extent and how should it refocus on growth in the east why do some luxury companies remain resilient through times of change while others do not the reason is that these companies have unique skills to diversify their revenue generation by being ambidextrous luxury companies today cannot depend on their reputation or their creativity alone to remain resilient rather they require the ability to be ambidextrous to explore new trajectories for future growth and exploiting their iconic values in past decades the industry has shifted from product to customer centric and forced companies to adopt new strategies and approaches to succeed this includes the adoption of digital platforms such as ecommerce social media and mobile enabled tools to continually elevate customer experience in addition new business models have emerged to address growing pains particularly in inventory issues over manufacturing and sustainability brands today are forced to adopt evolution through innovation that is anchored by new values without compromising their dna based on in depth research and interviews with ceos from leading luxury companies lojaco and pan show how companies can hedge their risks and remain resilient in times of change managing and marketing through motivation compared to other nationalities few french have immigrated to the united states and the state of michigan is no exception in that regard although the french came in small numbers those who did settle in or pass through michigan played important roles as either permanent residents or visitors the colonial french served as explorers soldiers missionaries fur traders and colonists later french priests and nuns were influential in promoting catholicism in the state and in developing schools and hospitals father gabriel richard fled the violence of the french revolution and became a prominent and influential citizen of the state as a u s congressman and one of the founders of the university of michigan french observers of michigan life included alexis de tocqueville french entrepreneurs opened copper mines and a variety of service oriented businesses louis fasquelle became the first foreign language instructor at the university of michigan and françois artault introduced photography to the upper peninsula as pioneers of the early automobile the french made a major contribution to the language used in auto manufacturing organizational change is often insider led and supported by internal consultants and change agents most of what is written about change comes from the perspective of external consultants or from academics researching the activities

of those with insider change roles changing organizations from within is unusual in providing a range of authentic insider accounts the editors define insiders as employees who lead and support change efforts within their own organizations and those psychoanalytically aware external consultants external insiders who work closely with organizations and use the dynamics of transference and projection in their relationships with clients to illuminate organizational issues each chapter is written by an author with experience of different kinds of insider relationships with their client organizations some work inside as employees some are external consultants whose work involves developing insightful insider perspectives the book s editors and several of the authors are graduates or have been faculty members of london s tavistock institute advanced organizational consultation programme with experience of running development programmes for consultants and of coaching insiders changing organizations from within examines the pulls on role and identity that can easily undermine competence and practice understanding the system psycho dynamics present in organizations helps consultants and change agents to make use of an insider perspective without becoming enmeshed in the client organization s regressive and inertial dynamics the authors provide practical advice to help insiders navigate organizational space make sense of tricky situations and work more mindfully to help organizations change is america s alliance system so quietly effective that politicians and voters fail to appreciate its importance in delivering the security they take for granted for the first century and a half of its existence the united states had just one alliance a valuable but highly controversial military arrangement with france largely out of deference to george washington s warnings against the dangers of entangling alliances subsequent american presidents did not consider entering another until the second world war then everything suddenly changed between 1948 and 1955 us leaders extended defensive security guarantees to twenty three countries in europe and asia seventy years later the united states had allied with thirty seven in shields of the republic mira rapp hooper reveals the remarkable success of america s unprecedented system of alliances during the cold war a grand strategy focused on allied defense deterrence and assurance helped to keep the peace at far lower material and political costs than its critics allege when the soviet union collapsed however the united states lost the adversary the system was designed to combat its alliances remained without a core strategic logic leaving them newly vulnerable today the alliance system is threatened from without and within china and russia seek to break america s alliances through conflict and non military erosion meanwhile us politicians and voters are increasingly skeptical of alliances costs and benefits and believe we may be better off without them but what if the alliance system is a victim of its own quiet success rapp hooper argues that america s national security requires alliances that deter and defend against military and non military conflict alike the alliance system is past due for a post cold war overhaul but it remains critical to the country s safety and prosperity in the dollars since its founding the united states has allied with unsavory dictatorships to thwart even more urgent security threats how well has the united states managed such alliances and what have been their consequences for its national security in this book evan n resnick examines the negotiating tables between the united states and its allies of convenience since world war ii and sets forth a novel theory of alliance bargaining resnick s neoclassical realist theory explains why u s leaders negotiate less effectively with unfriendly autocratic states than with friendly liberal ones since policy makers struggle to mobilize domestic support for controversial alliances they seek to cast those allies in the most benign possible light yet this strategy has the perverse result of weakening leverage in intra alliance disputes resnick tests his theory on america s cold war era alliances with china pakistan and iraq in all three cases otherwise hardline presidents bargained anemically on such pivotal issues as china s sales of ballistic missiles pakistan s development of nuclear weapons and

iraq s sponsorship of international terrorism in contrast u s leaders are more inclined to bargain aggressively with democratic allies who do not provoke domestic opposition as occurred with the united kingdom during the korean war an innovative work on a crucial and timely international relations topic allies of convenience explains why the united states has mismanaged these deals with the devil with deadly consequences challenging common interpretations of the political thought of john adams and adam smith democracy equality and justice offers an engaging and novel portrait of the political economy in america at its founding the founders believed that liberty should not trump community but should exist within the context of community drawing on extensive written records of the thought of john adams and adam smith the father of modern capitalism dr john e hill argues that these two great men advocated a balanced values based and just political economy adams historically misperceived as a rugged individualist who favored aristocracy over democracy actually emphasized political balance with no one socio economic class dominating any other smith incorrectly portrayed as a supporter of laissez faire government advocated economic balance with no class or individual receiving special treatment from the government applying their values of universalism and moderation today would significantly broaden the definition of morality in contemporary politics democracy equality and justice is a stimulating and sophisticated text that will encourage debate over the relationship between historical ideas and contemporary economic problems the word luxury has almost lost its meaning once used to describe genuinely prestigious products or places the concept of luxury has been hijacked by a multitude of aspiring or overpriced commodities from foot spas to chocolates so what is real luxury which are the genuine luxury brands and how have they reacted to the rise of the mass luxury sector what strategies do they use to lift themselves into the realm of the truly elite who are their customers and what kind of lives do these remarkable people lead how do luxury brands attract and retain them and above all where can the industry turn now excess is out of fashion with wit accuracy and insatiable curiosity luxury world takes us on a voyage around the those interested in contemporary and future regional and global security dynamics there are moments when we forget how fortunate we are to have the california coast the state is home to 1 100 miles of uninterrupted coastline defined by long stretches of beach and jagged rocky cliffs coastal sage chronicles the career and accomplishments of peter douglas the longest serving executive director of the california coastal commission for nearly three decades douglas fought to keep the california coast public prevent overdevelopment and safeguard habitat in doing so douglas emerged as a leading figure in the contemporary american environmental movement and influenced public conservation efforts across the country he coauthored california s foundational laws pertaining to shoreline management and conservation proposition 20 and the california coastal act many of the political battles to save the coast from overdevelopment and secure public access are revealed for the first time in this study of the leader who was at once a visionary warrior and coastal sage first published in 2002 routledge is an imprint of taylor francis an informa company explores the shift in the locus of modernity in fin de siecle france from technological monument to private interior the text examines the political economic social intellectual and artistic factors specific to the french fin de siecle that interacted the road to war is the second in a series of five episodic collections chronicling the adventures of one hunter jusenkyou the road to war tells a story in an unusual way instead of the traditional linear novel this book like the last is divided into a series of short stories stories appear in chronological order and tell an over arching plot that is the story of the whole book the book examines how the indigenous nobility of tetzcoco navigated the tumult of spanish conquest and early colonialism this volume delivers a concise clear round up of american history starting from america s colonial era to current days of political disagreements and social uncertainty covering central themes and events of american history masur evaluates the contested meanings of the american dream and questions its viability a teacher scholar practitioner and publicist richard ullman has been a unique and influential figure in u s foreign and security policy over the past forty years this volume created on the initiative of some of ullman s most accomplished former students is less a summing up of his work than a sort of intellectual kaleidoscope held up to his ideas the result is a spirited and highly readable set of essays on themes relating to u s foreign and defense policy in a period of nearly unprecedented dynamism in the international system the volume includes contributions by david gompert i m destler michael doyle michael o hanlon and eight other distinguished scholars and practitioners of international relations a council on foreign relations book exploring enlightenment attitudes toward things and their relation to human subjects this collection offers a geographically wide ranging perspective on what the eighteenth century looked like beyond british or british colonial borders to highlight trends fashions and cultural imports of truly global significance the contributors draw their case studies from western europe russia africa latin america and oceania this survey underscores the multifarious ways in which new theoretical approaches such as thing theory or material and visual culture studies revise our understanding of the people and objects that inhabit the phenomenological spaces of the eighteenth century rather than focusing on a particular geographical area or on the global as a juxtaposition of regions with a distinctive cultural footprint this collection draws attention to the unforeseen relational maps drawn by things in their global peregrinations celebrating the logic of serendipity that transforms the object into something else when it is placed in a new locale class politics the movement for the students right to their own language 2e is a response to histories of composition studies that focused on scholarly articles and university programs as the generative source for the field such histories particularly in the 1980s and 1990s divorced the field from activist politics washing out such work in the name of disciplinary identity class politics shows the importance of political mass movements in the formation of composition studies particularly civil rights and black power class politics also critiques
