webergebnis the english language master s program electrical engineering offers a choice of six specializations in the field of electrical engineering and information technology smart information processing communication systems nano and optoelectronics power electronic systems and technologies smart systems webergebnis the department of electrical engineering offers six study programs one bachelor degree program three master s degree programs and two international master s degree programs there are five study programs in cooperation with other departments prospective study information study programs department webergebnis electrical engineering and information technology b sc for prospective students information for prospective students of electrical engineering and information technology b eng the new degree course in the field of electrical engineering with additional possibility for in depth studies webergebnis engineering fundamentals from electrical engineering mechanical engineering and computer science as well as in depth training in the core areas of electrical engineering electrical power engineering communications technology and webergebnis electrical engineering is now divided into a wide range of different fields including computer engineering systems engineering power engineering telecommunications radio frequency engineering signal processing instrumentation photovoltaic cells electronics and optics and photonics webergebnis this development is reflected in tu berlin s broadly based master s program in electrical engineering students can choose from a broad range of modules in the fields of electrical power engineering automation engineering electrical engineering photonics and integrated systems as well as communication webergebnis the scientifically oriented master s program in electrical engineering and information technology builds upon existing factual and methodological knowledge and offers the opportunity to specialize for a career in industry or in research course homepage key data type of study full time part time webergebnis the international master s program electrical engineering gives you the opportunity to expand your knowledge aquired during your bachelor studies in one of the two major fields of study electrical power engineering involves generation transmission conversion and application of electrical energy webergebnis the bachelor electrical engineering elektrotechnik is an engineering course of study with a practical orientation due to a specially

tailored core curriculum it is suitable for students who lack the language requirements for a german speaking course at the beginning of their studies webergebnis electrical engineering konstruieren sie ihren karrieresprung sie möchten in der elektro und informationstechnik eine internationale karriere aufbauen dann lernen sie im masterstudiengang electrical engineering die zunehmend komplexer werdenden aufgabenstellungen global agierender unternehmen zu

electrical engineering m sc for prospective students study Feb 03

2024

webergebnis the english language master s program electrical engineering offers a choice of six specializations in the field of electrical engineering and information technology smart information processing communication systems nano and optoelectronics power electronic systems and technologies smart systems

department of electrical engineering faculty 5 computer Jan 02 2024

webergebnis the department of electrical engineering offers six study programs one bachelor degree program three master s degree programs and two international master s degree programs there are five study programs in cooperation with other departments prospective study information study programs department

electrical engineering and information technology b sc Dec 01 2023

webergebnis electrical engineering and information technology b sc for prospective students information for prospective students of electrical engineering and information technology b eng the new degree course in the field of electrical engineering with additional possibility for in depth studies

b sc electrical and electronic engineering uni due de Oct 31 2023

webergebnis engineering fundamentals from electrical engineering mechanical engineering and computer science as well as in depth training in the core areas of electrical engineering electrical power engineering communications technology and

electrical engineering wikipedia Sep 29 2023

webergebnis electrical engineering is now divided into a wide range of different fields including computer engineering systems engineering power engineering telecommunications radio frequency engineering

signal processing instrumentation photovoltaic cells electronics and optics and photonics

electrical engineering m sc technische universität berlin Aug 29

2023

webergebnis this development is reflected in tu berlin s broadly based master s program in electrical engineering students can choose from a broad range of modules in the fields of electrical power engineering automation engineering electrical engineering photonics and integrated systems as well as communication

electrical engineering and information technology tum Jul 28 2023

webergebnis the scientifically oriented master s program in electrical engineering and information technology builds upon existing factual and methodological knowledge and offers the opportunity to specialize for a career in industry or in research course homepage key data type of study full time part time

electrical engineering universität rostock Jun 26 2023

webergebnis the international master s program electrical engineering gives you the opportunity to expand your knowledge acquired during your bachelor studies in one of the two major fields of study electrical power engineering involves generation transmission conversion and application of electrical energy

bachelor electrical engineering elektrotechnik beng daad May 26

2023

webergebnis the bachelor electrical engineering elektrotechnik is an engineering course of study with a practical orientation due to a specially tailored core curriculum it is suitable for students who lack the language requirements for a german speaking course at the beginning of their studies

studium electrical engineering master hochschule kempten Apr 24 2023

webergebnis electrical engineering konstruieren sie ihren karrieresprung sie möchten in der elektro und informationstechnik eine internationale karriere aufbauen dann lernen sie im masterstudiengang electrical engineering die zunehmend komplexer werdenden aufgabenstellungen global agierender unternehmen zu
